Here are the 9 cosmetic procedures totalling €45K that Megan has had done

She's been stealing hearts left, right and centre.

When Megan entered the villa last month, it's safe to say all of us were taken aback by her beauty. She's the blonde bombshell that every lad absolutely fell in love with.

However, as she settled into the villa, she revealed to Samira that she has had work done. Samira was upset about Frankie liking Megan over herself, and while Megan went to comfort her she said "anyone can have veneers, a boob job and lip fillers," but it's personality and inner beauty that really counts.

And now, a doctor - who has not worked on Megan - has revealed what he believes the reality star has undergone to get the way she looks now.

Dr Julian De Silva told the [*Daily Mail*](#) that he thinks Megan has had nine procedures in total, ranging from veneers to chin surgery.
