

# The 'most beautiful celebrity face' has been named by a cosmetic surgeon

By [Jo Abi](#) | 4 months ago

A cosmetic surgeon has revealed the celebrity with the most mathematically beautiful face, according to a mapping process known as the Golden Ratio of Beauty Phi.

[Dr Julian De Silva](#) has used the process, which originated from the European Renaissance and has been used to assess artworks, on today's most popular female celebrities.

*Killing Eve* star [Jodie Comer](#), 29, has been named as the most mathematically beautiful celebrity, followed closely by [Euphoria](#) actress [Zendaya](#), 26.

Jodie Comer, 29, has been named as the most mathematically beautiful celebrity (FilmMagic)

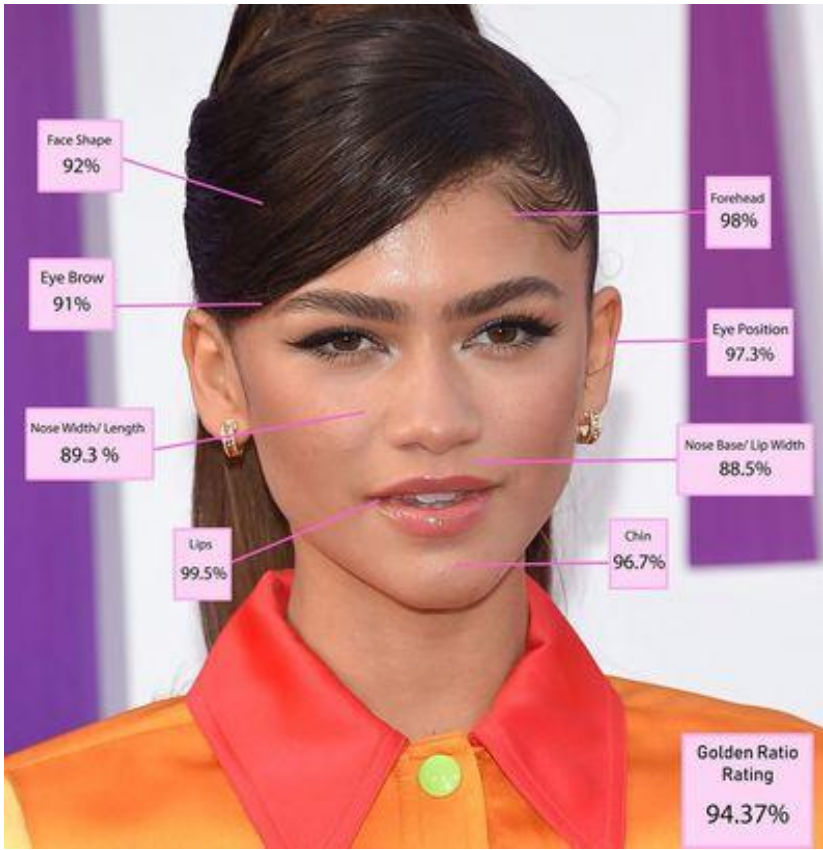

De Silva assessed Comer's facial features, finding she almost achieves a perfect score.

He shared the results of his assessment on his company's Instagram page.

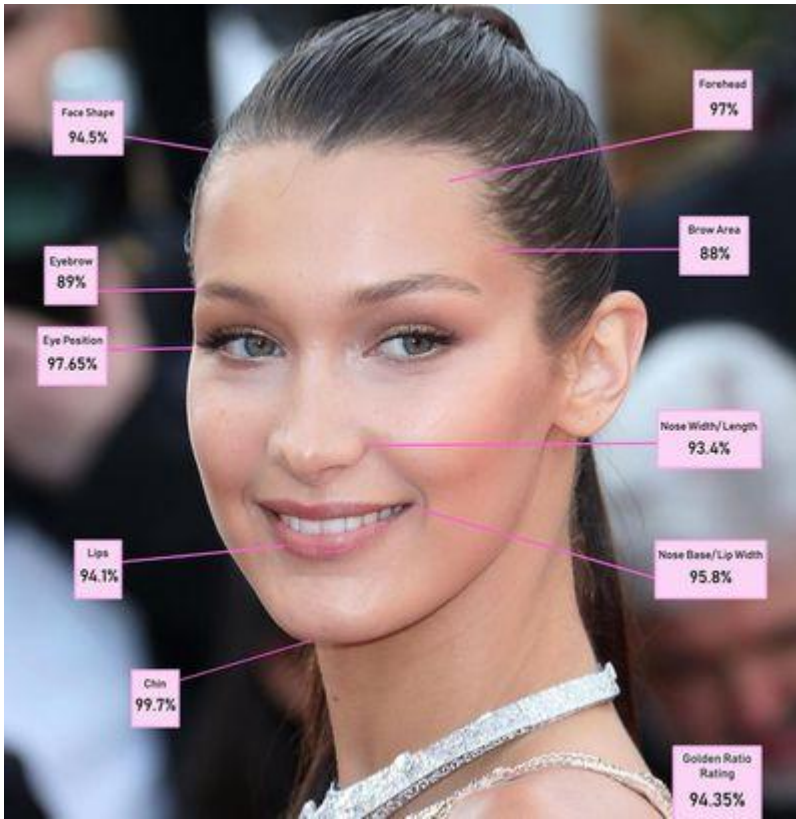

Alongside a photo of Comer's face complete with the mathematical results of his assessment Dr De Silva wrote: "Jodie Comer is the most beautiful woman in the world, according to science.

"The 29-year-old Killing Eve actress was found to be 94.52% accurate to the Greek Golden Ratio of Beauty Phi - which measures physical perfection."

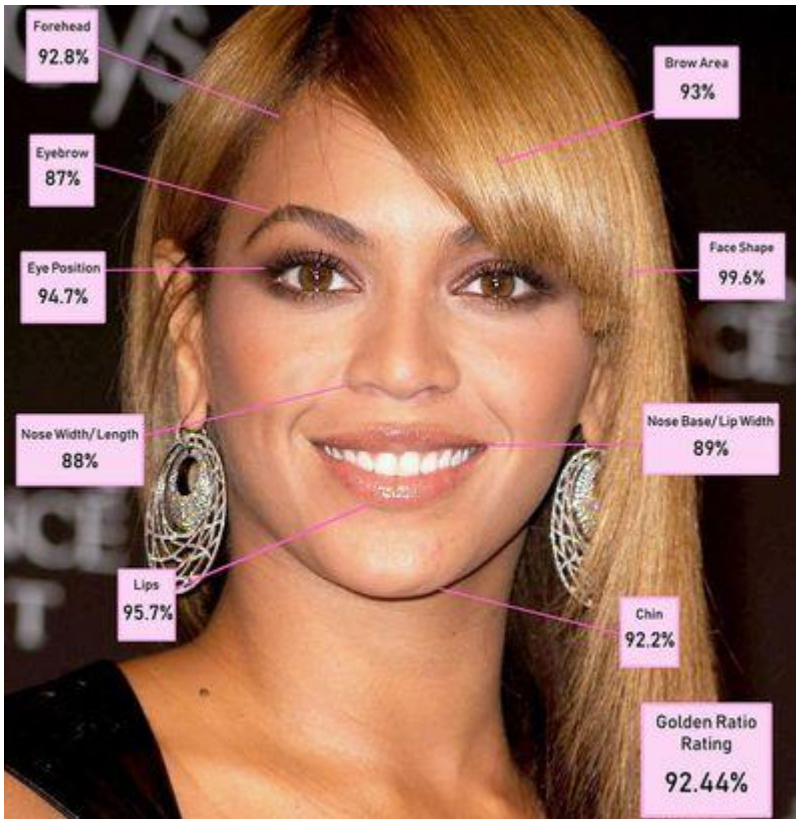

He next shared that Zendaya was second with 94.37 per cent, followed by model Bella Hadid with 94.35 per cent. Beyonce was fourth with 92.44 percent.
